Column Descriptions:

Census: the year the Census was taken

Full Name: the name of the family member, which sometimes, but not often, included a middle initial

Relation: the relationship of each household member to the head of the household; does not include other non-Weeast members present at the time

Gender: male or female

Age: age at the time of the census; many times you will see a discrepancy from Census to Census

Birth: this is an estimated calculation from the birth year to the age given and can be off depending what month they were born in and the age provided

Birth Place: if born in the US this would be the state born in, otherwise the country

Father: this is based on my family tree database and is not part of the Census record

Mother: this is based on my family tree database and is not part of the Census record

Occupation: the occupation given; most of the Weeast worked in foundaries up until the early 1900's

Residnece Place: the location where the Census was taken

Index Name: this is the name assigned by an indexer, who often made many misinterpretations of the script handwriting, and is not part of the Census record; use this name to search in FamilySearch.org
